Chapter 92.3

Breaking The Formation

"Reporting!" A male voice gasped as it shocked Murong Shu Qing and Pei Che, who had been sitting restlessly for over an hour. Pei Che excitedly got up and loudly said, "Come in."

The young soldier entered the main tent and reported right away with a loud voice, "Cang Yue dispatched 10,000 soldiers into the formations. There was a lot of killing inside the formations, but so far, no one from our army has come out yet."

10,000 soldiers?! Murong Shu Qing and Pei Che knitted their eyebrows at the same time. You Xiao had already been defeated by Xuanyuan Yi, but he still had arranged for 10,000 troops to go over to the formations. It was not because he didn't have the confidence to meet Xuanyuan Yi head-on, but it seemed as if he wanted the people inside the formations to perish forever. Murong Shu Qing got up and walked over to the front of the topographic map. She looked over it for a moment before she asked, "How many soldiers does Cang Yue have outside the formations for an ambush?" After breaking the formations, there were only two exits to come out of there, so if You Xiao wanted Shang Jun to die, then it would be impossible for him to not have people there to ambush him.

"Approximately 8,000 soldiers."

8,000 soldiers! Murong Shu Qing looked at the topographic map and then looked at the military deployment map, but did not say anything after a long time.

Pei Che tightly clasped his hands and released them, repeating it again and again. Finally, after thinking it over for a while, he firmly said, "Transfer 5,000 soldiers and wait for the dispatch." He was left behind to take care of things in order to guarantee the safety of the main camp. The most important thing was to look over the situation of the fight and provide timely assistance. He originally thought that when You Xiao knew of the plan to break the formations, it would be only to entice him, as he would use his soldiers to battle with Xuanyuan Yi. However, he had unexpectedly dispatched 10,000 soldiers to go over to the formations.

"Yes!"

Murong Shu Qing did not lift her head up, because her eyes had not left the topographic map this whole time, when she faintly asked, "You plan on letting the cavalry enter the formations?!"

Pei Che raised his head to look towards Murong Shu Qing because he was somewhat baffled; she knew Cang Yue had transferred 10,000 soldiers over to the formations, but she was not nervous at all and her expression remained somewhat tranquil. Walking over to her side, Pei Che answered, "10,000 soldiers versus 3,000 soldiers! There is also the chain of formations, so the odds of success are almost zero." He knew perfectly well that they could be in danger, but he could not withhold from providing any assistance!

Murong Shu Qing softly shook her head and calmly said, "But I do not think it like this. Shang Jun spent five days to explain the essentials on how to break the formations and those 3,000 soldiers who went in,

were all well-established and carefully selected from the best people. Since Cang Yue wanted to bring over 10,000 soldiers, it could clearly be seen that their people who were in the formations, were already dead or seriously injured. They were not Shang Jun's opponents. So in regards to these formations, Shang Jun and the others were a lot better than those new 10,000 soldiers from Cang Yue. The water can carry the boat and also capsize the boat. 10,000 soldiers versus 3,000 soldiers, they are not necessarily superior."

It wasn't that she was not nervous for Shang Jun, just a moment ago her heart almost jumped out, but this would not help him. She must be calm, otherwise what could she or Pei Che do for them?! She had confidence in Shang Jun, Yan Yu and the others, because she had heard from Jun in the past that inside the formations, they could get some protection from the formation on their own. As long as they deciphered the formations, then the originally dangerous and mysterious formations could also be used by him. She believed Jun could deal with this.

"Then what are you recommending?!" Listening to her explanation was quite reasonable, so Pei Che became energetic again. Shu Qing could always give him a nice surprise, so he hoped that she could speak up with a solution this time.

Pointing towards the military deployment map, Murong Shu Qing said, "We have 30,000 soldiers in the main army and you can utilize 10,000 soldiers. I think if you hastily arrange 5,000 soldiers to enter the formation, they won't understand this type of formations. Not only will they be unable to help Shang Jun, but they may also create unnecessary deaths or injuries."

Walking over to the front of topographic map again, Murong Shu Qing picked up two small flags and inserted them where the two exits of the formations were before she faintly but confidently said, "It would be better to... gather 8,000 soldiers to ambush and wipe out those Cang Yue soldiers who are waiting outside the formations and replace them with our soldiers. When Shang Jun and the other people come

outside the formations and replace them with our soldiers. When Shang Jun and the other people come out of the formations, they will surely be drained, so at that time they will be able to provide support for them. Second, if Cang Yue soldiers are still pursuing and attacking, then they can also use arrows to annihilate them when they come out from the formations at that time."

After she finished speaking, Murong Shu Qing paused for a moment, before she coldly said again, "Moreover, if Shang Jun and the other people cannot come out, then in that case, do not let any person from Cang Yue come out alive either."

"Shu Qing, you...." Pei Che was not used to seeing Shu Qing who was always simple, elegant and tender with her words, became grave and stern like this. So she was not the person who did not pay any attention to things, if one dared to touch the people or things that she cared about, she could also be ruthless.

Lightly closing her eyes and taking in a deep breath, Murong Shu Qing smiled and then opened her eyes again before she faintly smiled and said, "I am alright. Ultimately, after they break the formations, they can also provide assistance to Xuanyuan Yi. What do you think?" With regards to military matters, she really did not understand completely, so Pei Che would still have the final say in everything, because after all, he was the talented and experienced military adviser.

Pei Che sighed and said, "I think it is good, let's do it that way." Even though they were taking risks by doing it like this, they could not help the situation inside the formations anyway, so they could only do it like this. He hoped that the 3,000 soldiers would be capable of facing this adversity and come out of the formation.

"Someone comes."
